HIGH DEFINITION VIDEO RECORDING AND EDITING

The nature of this service means that you will need to **ask for a personalised quotation** for the specific requirements you have. The price will depend upon the number of cameras/operators required and the total length of the event which you want filmed. As a very rough guide you should expect to pay a minimum of £100 - £150 per hour of your event; e.g. For a 2-camera recording of a wedding, including attending any rehearsal, being present at the venue one hour before the ceremony, recording the ceremony and the "photo-session" afterwards together with the departure of the bride and groom, editing and mastering the recordings in order to manufacture the master DVD, you should expect to be charged at least £750. Additional DVDs can be manufactured (at our normal DVD copying price) or you may freely copy the master yourself.

There will also be a charge for travel for journeys in excess of 20 miles, each way from our office, of 45p per mile per vehicle.

Non-Returnable Booking Deposit: £150

CD/DVD DISC (FILE) RESTORATION

The nature of this service means that it is impossible to give a price before we have seen the affected disc(s). Because of this we offer a **No Obligation "testing" service**; you send us the disc(s) you would like us to check with a view to full restoration. We will carry out a detailed check and report to you what we have found, together with a quotation for carrying out the full restoration.

If you decide that the work is too costly or our checks reveal there is little chance of recovering much, if any, of the damaged files, you will owe us nothing further, other than return delivery costs.

If you decide that full restoration should be carried out, for each disc that is to be restored the amount paid for the initial checking will be credited to your final invoice.

The charge for the initial check and report is **£12 plus VAT per disc**.

For all transfer/transcription services the finished product is supplied in a standard CD or DVD library case with simple on-disc and inlay booklet printing at the given price.

VIDEO TO DVD/BLU-RAY TRANSFER

Price for this will vary depending upon the length of the supplied video tape and whether any “remedial” work is needed in order to present at least a reasonable copy of the original.

For transfer of a max 1.5 hour tape to single-layer DVD: **£21**

For transfer of a 2 hour plus tape to dual-layer DVD: **£37**

Any necessary editing of computer video files: **£15 per hour or part thereof**

Standard DVDs have a maximum playing time of approximately 1.5 hours; programmes of up to approximately 2.75 hours can be transcribed to Dual-Layer discs.

BD (Blu-ray) discs: add 25% to above prices.

These are only examples; please contact us with specific details of your requirements to receive a personal quotation.
